Mr. Cyrus Western  
Regional Administrator, Region 8  
U.S. Environmental Protection Agency  
1595 Wynkoop St.  
Denver, CO 80202

RE: UIC Program Class VI Primacy Application

Dear Mr. Western,

Enclosed is Utah's revised 1425 Underground Injection Control (UIC) program application for Class VI primacy enforcement responsibility, submitted for USEPA approval. This application contains all the elements required for submission under CFR 40 Part 145.22.

The state of Utah is formally requesting primary enforcement authority for the UIC Class VI (Carbon Sequestration) wells as a revision under the existing Utah Division of Oil, Gas and Mining's UIC Program. Utah has the statutory authority, manpower, and expertise to effectively implement the Class VI UIC program in order to provide for responsible Class VI well development and protection of the groundwater resources of Utah.

I hereby request an expedited EPA review and approval of the Utah Class VI primacy application.

Sincerely,

A handwritten signature in black ink, appearing to read "Spencer J. Cox".

Spencer J. Cox  
Governor
